

Shreedhar Anand

Software Developer — Full Stack Web Developer — Machine Learning Enthusiast

☎ +91-9060749243 ✉ Shreedharanandji@gmail.com  [LinkedIn](#)  [GitHub](#)  [Portfolio](#)

Education

Indian Institute of Information Technology Senapati, Manipur

Aug 2022 – May 2026 (Expected)

B.Tech in Computer Science and Engineering, CGPA: 7.81 (till 6th Semester)

Imphal, Manipur

Technical Skills

- **Languages:** Python, JavaScript, C++, C, SQL
- **Frontend:** React, Next.js, HTML5, CSS3, Tailwind, Bootstrap
- **Backend:** Node.js, Express, Flask, REST APIs, n8n
- **Databases:** MongoDB, PostgreSQL, MySQL
- **AI/ML:** Scikit-learn, NLP, OpenAI API, Pandas
- **DevOps:** Git, GitHub, Docker
- **Tools:** VS Code, Linux, Jupyter, Postman

Experience

Full-stack MERN Developer Intern

June 2025 – Aug 2025

Orbol Group, Software Development Division

Ahmedabad, Remote/Part-time

- Defined a MERN-based gaming platform with user and admin panels, integrating Clerk (auth), PhonePe (payments), and real-time leaderboards.
- Connected Riot Games and FACEIT APIs for live player stats and tournament data.
- Used Neon and Supabase for scalable backend and database; optimized frontend for SEO and performance.

Centre for Development of Advanced Computing (C-DAC), Noida

July 2024 – Sept 2024

Software Development Intern - Performance Engineering

Noida, India

- Created 5 Python tools and optimized Nginx-Apache proxy, improving system throughput by 30%.
- Enhanced CLI and caching with Nginx/Linux, reducing resource usage by 25%; scored 95%+ in OS/networking.

Projects

CareerPilot | Next.js, JavaScript, PostgreSQL, Python, Machine Learning, NLP, OpenAI API, Mira API  

- Built an AI-powered platform with 85% job match accuracy using NLP, OpenAI, and job scrapers from 10+ sites.
- Implemented resume/cover letter generators, Resume ATS score and Job role Predictor, AI interview prep, and personalized dashboards for 200+ users.
- Boosted career prep efficiency and user success rates by 30% via ML-driven tests and goal tracking.

FinanceFlow | Next.js, Prisma, Clerk, Tailwind CSS, PostgreSQL, Google Gemini API, Arcjet, Resend API, Analytics  

- Built an AI-powered finance platform using Google Gemini API to deliver personalized insights and recommendations.
- Implemented multi-account management, budget planning, receipt scanning, and analytics dashboards for expense tracking.
- Integrated Clerk authentication, Prisma ORM with PostgreSQL, Arcjet API protection, and Resend API for automated notifications.

Pathfinding Algorithm Visualization | Java, Swing, JFrame, HTML5, CSS3 

- Designed a Java desktop app visualizing BFS, DFS, Dijkstra, and A* on 50+ mazes with interactive real-time UI.
- Enabled pathfinding like Google Maps and file-based uploads, helping 100+ students understand DSA.
- Reduced DSA learning time by 40% with intuitive UI and step-by-step visualizations.

Control and Operation of Renewable Energy | React, Flask, PostgreSQL, Streamlit, AWS, LSTM, Scikit-learn  

- Led hackathon-winning team project optimizing solar/wind energy with ML models (LSTM) and 90% accurate predictions.
- Transformed scalable Flask backend on AWS, reducing latency by 25% and handling 50+ real-time energy queries.
- Developed an interactive React/Streamlit dashboard used by 20+ operators for energy analytics and insights.

Coding Platforms

LeetCode: 300+ problems solved 

CodeChef: Achieved 3* rating 

Achievements/Certification

- Top Performer in NPTEL Python Course (All India Rank) 
- Bihar Governor's Award for Scout/Guide Rajya Puraskar Examination 
- 3rd Rank in Ahouba 2.0 Hackathon; won 30,000 for renewable energy project 
- Completed Data Analytics with Python NPTEL course
